It was a difficult road to pave but it's becoming smoother and smoother. 13 states, 2 countries, 2 major TV networks, 4 nationally published magazines, and over 13 videos later my dreams are becoming a reality. Now riding with The Xtreme Team and doing Stunting to help promote kids to focus their attention into more constructive activities like riding instead of getting involved with drugs and violence has one of the most rewarding and fullfilling things I have done, To win an award and hang on the wall is one thing, but to change someones life in a possitive way is worth more then any award and to have so many people come up to me years later telling me I have inspired them to ride is the BEST part of the job.

Dear Frank, Kris, Matthew,

The purpose of this letter is thank you for being one of the highlights of our International D.A.R.E. Conference in San Antonio. Your motorcycle stunt show brought excitement and an added level of energy to our D.A.R.E. Car Parade. Because of your support of our officers in San Antonio the deputies and officers who attended will want to teach children the dangers of drug use, and more kids to teach children the dangers of young people using illegal drugs and violence.

This year the International D.A.R.E. Conference in San Antonio had all 50 states and at least 14 foreign nations. All of us at D.A.R.E. participation and dedication in assisting us with a successful conference.

As we face the continued challenge of educating and protecting a generation of illegal drugs and violence your motorcycle stunt show benefits of a healthy and clean lifestyle and the importance of people.

I look forward to updates from the Executive Team and wish you a Thank again.

Sincerely,
Charlie

We appreciate the outstanding performance your team provided for our community. Many of the children at the event are low income and do not get the chance to see teams like your in person. They were thrilled and the message you provide is great.
